

## **VT CW HEMLOCKS VENDORS LIST**

The following list has been assembled to aid people in their search for uniforms and equipment items. This is designed only as a guideline based on information and experience. If an item is listed as high quality that in no way implies that other items produced or sold by that company are of sufficiently acceptable manufacture. ALWAYS, ALWAYS, ALWAYS check with the Quartermaster prior to ordering. You don't want to wind up with an article that will not be allowed in the field.
